Jeff,

The manifest (2x 55-gallons of waste flammable liquids, n.o.s. UN1993) were submitted as part of the final report that was sent up to Sharon Nickels w/ cc to you and Bruce Mirkin on September 29, 2003. Here is a copy of the last two attachments to that report. Hopefully this answers the questions. The waste that was in the 5-gallon cans was all from the 2900 NE Blakely Street site near the U. Village Mall. The drums were labeled 09000 - 09024. Please let me know if there is anything else you need.

Hi Steve,

I need to know where the manifests are for the disposal of the Shades of Seattle waste, which was sent off for disposal. The drums which the samples came from.

Thanks

PM

Jeff,

In reference to your voice message about the shades of seattle final disposal, I gave a cooler full of the custody samples to Bruce Mirkin - two 4oz jars per sample. He mentioned that he was going to either save them or transport them to manchester for final storage. I am back from my two weeks of National Guard duty, so please give me a call or drop me a line if this doesn't answer your questions. Thanks. Hope you are enjoying the sunshine up in alaska...
